

### 3. Forms to be filled in by the PUPILS

*To be filled in by the end of October 2008*

#### Form 3.1. Impact of MST lessons / activities on pupils before the Inspire tests

Questionnaire to be filled in by the pupils BEFORE involvement in the pilot

<b>Name of the school:</b>				
<b>Age:</b>	<b>Class:</b>	<b>Girl</b>	<b>Boy</b>	
<b>(Tick the appropriate box!)</b>		<b>1 Not at all</b>	<b>2</b>	<b>3</b>
				<b>4 Very much</b>
I am strongly interested in and motivated for mathematics, science or technology				
It is easy for me to understand and learn mathematics, sciences and technology				
The MST lessons are organized in such a way that it is easy to integrate and to remember what I am learning				
I do not like the use of ICT in general				
The MST lessons make the link between mathematics, science and technology and my every day life				
I can easily study the mathematics, science or technology by myself at my own pace and speed				
I know how to use certain scientific methods				
The MST lessons help me to evaluate critically the use of data and scientific methods				
The MST lessons stimulate debate with my fellow pupils about scientific issues (and societal issues, such as ecology, related to them)				
The MST lessons improve the relations and the cooperation between the pupils in the classroom				
The MST lessons make it easier for me to understand the work of scientists and researchers				
The MST lessons help me clarify the choice of my profession for later life
